CONTENTS OF VOLUME 132

No. 1, JANUARY, 1940

PAGE

TALBOT, N. B., LOWRY, OLIVER H., and ASTWOOD, E. B. Influence of estrogen on the electrolyte pattern of the immature rat uterus ... 1

GOODHART, ROBERT, and SINCLAIR, H. M. Deficiency of vitamin B_1 in man as determined by the blood cocarboxylase ... 11

FRIES, B. A., CHANGUS, G. W., and CHAIKOFF, I. L. Radioactive phosphorus as an indicator of phospholipid metabolism. IX. The influence of age on the phospholipid metabolism of various parts of the central nervous system of the rat. The comparative phospholipid activity of various parts of the central nervous system of the rat ... 23

BISCHOFF, FRITZ. The picric acid and picrolonic acid precipitates of gonadotropic extracts ... 35

GAVIN, GERTRUDE, and MCHENRY, E. W. The B vitamins and fat metabolism. III. The effects of vitamin B_6 upon liver and body fat ... 41

SMITH, ELIZABETH R. B., and SMITH, PAUL K. Thermodynamic properties of solutions of amino acids and related substances. IV. The effect of increasing dipolar distance on the activities of aliphatic amino acids in aqueous solution at twenty-five degrees ... 47

SMITH, PAUL K., and SMITH, ELIZABETH R. B. Thermodynamic properties of solutions of amino acids and related substances. V. The activities of some hydroxy- and N-methylamino acids and proline in aqueous solution at twenty-five degrees ... 57

BLACK, SIMON, FROST, D. V., and ELVEHJEM, C. A. The relation of vitamin B_6 and pantothenic acid to factor W studies ... 65

BLOOR, W. R. Inheritance effect of exercise on the phospholipid and cholesterol content of muscle ... 77

GREENGARD, HARRY, and WOOLLEY, JEAN REA. Studies on colloidal sulfur-polysulfide mixture. Absorption and oxidation after oral administration ... 83

MACKINNEY, G. Criteria for purity of chlorophyll preparations ... 91

HARKINS, WILLIAM D., FOURT, LYMAN, and FOURT, PRISCILLA CHINN. Immunochemistry of catalase. II. Activity in multilayers ... 111

COOLIDGE, THOMAS B. Chemistry of the van den Bergh reaction ... 119

LARSEN, JUNIUS, and POE, CHARLES F. The solubility of pancreatic amylase in some organic solvents ... 129

FISHER, R. B., and WILHELMI, A. E. Observations on the relation of urea and glycine to creatine synthesis ... 135

KERR, STANLEY E. The determination of purine nucleotides and nucleosides in blood and tissues 147
CAHILL, WILLIAM M., and BURTON, IRVING F. Racemization of amino acids and dipeptides on acetylation with ketene 161
HALLIDAY, NELLIE, DEUEL, HARRY J., JR., TRAGERMAN, L. J., and WARD, W. E. On the isolation of a glucose-containing cerebroside from spleen in a case of Gaucher's disease 171
KEYS, ANCEL. A rapid micro-Kjeldahl method 181
BERNHART, F. W. Molecular weight of egg albumin 189
KAYE, IRVING A., LEIBNER, I. WALLACE, and CONNOR, EDWIN B. Apparatus for the continuous drying and extraction of biological materials. Application to the extraction of the neutral fat fraction of feces 195
SIZER, IRWIN W. The activation energy of urea hydrolysis catalyzed by soy bean urease 209
WEISSBERGER, LOUISE HARRIS. The increase in phospholipid and total phosphorus metabolism of the kidney following the administration of ammonium chloride, with radioactive phosphorus as an indicator 219
CLUTTON, ROGER F., SCHOENHEIMER, RUDOLF, and RITTENBERG, D. Studies in protein metabolism. XII. The conversion of ornithine into arginine in the mouse 227
BAKER, ZELMA, and MILLER, BENJAMIN F. Studies on the metabolism of creatine and creatinine. III. Formation of creatine by isolated rat tissues 233
SOBEL, ALBERT E., YUSKA, HENRY, PETERS, DAVID D., and KRAMER, BENJAMIN. The biochemical behavior of lead. I. Influence of calcium, phosphorus, and vitamin D on lead in blood and bone .. 239
KIESE, MANFRED, and HASTINGS, A. BAIRD. The catalytic hydration of carbon dioxide 267
KIESE, MANFRED, and HASTINGS, A. BAIRD. Factors affecting the activity of carbonic anhydrase 281
LYMAN, CARL M., and BARRON, E. S. GUZMAN. Studies on biological oxidations. XII. Oxidations and carbohydrate synthesis in nephritic kidney slices 293
BORSOOK, HENRY, and DUBNOFF, JACOB W. The biological synthesis of hippuric acid *in vitro* 307
VICKERY, HUBERT BRADFORD. The determination of arginine by means of flavianic acid 325
WEICHSELBAUM, T. E., SOMOGYI, MICHAEL, and RUSK, HOWARD A. A method for the determination of small amounts of potassium .. 343
MOYER, LAURENCE S., and MOYER, ELSIE Z. Electrokinetic aspects of surface chemistry. VI. The interaction of gelatin with casein and egg albumin at surfaces 357
MOYER, LAURENCE S., and MOYER, ELSIE Z. Electrokinetic aspects of surface chemistry. VII. The electrophoretic behavior of microscopic particles in the presence of horse, human, or rabbit serum .. 373

Shaw, J. L. D., and McFarlane, W. D. A critical study of the *p*-dimethylaminobenzaldehyde method for determining tryptophane as contrasted with the glyoxylic acid method 387
Stadie, William C., Lukens, Francis D. W., and Zapp, John A., Jr. The effect of insulin upon urea formation, carbohydrate synthesis, and respiration of liver of normal and diabetic animals 393
Stadie, William C., Zapp, John A., Jr., and Lukens, Francis D. W. The effect of insulin upon oxidations of isolated minced muscle tissue 411
Stadie, William C., Zapp, John A., Jr., and Lukens, Francis D. W. The effect of insulin upon the ketone metabolism of normal and diabetic cats 423
Chen, Yen Ping, Freeman, Smith, and Ivy, A. C. The preparation of a concentrated fecal phosphatase and its effect on dogs and rats 445

Letters to the Editors

Toennies, Gerrit. Sulfonium reactions of methionine and their possible metabolic significance 455
Dorfman, Ralph I. Conversion of etioallocholan-3,17-dione into androsterone 457
Pfiffner, J. J., and North, H. B. 17-β-Hydroxyprogesterone 459
Pfiffner, J. J., and North, H. B. A new adrenal base 461
Stokstad, E. L. R., Manning, P. D. V., and Rogers, R. E. The relation between factor U and vitamin B_6 463
Fruton, Joseph S., Irving, George W., Jr., and Bergmann, Max. The specificity of proteolytic enzymes from tumors 465
Emmett, A. D., Brown, R. A., and Kamm, Oliver. Comparison of the antihemorrhagic activity of natural and synthetic vitamin K_1 with the proposed standard 2-methyl-1,4-naphthoquinone 467
Klose, A. A., and Almquist, H. J. Synthesis of vitamin K_1 469
Bergmann, Werner. The splitting of digitonides 471

No. 2, February, 1940

Field, J. Thomas, and Poe, Charles F. A biochemical study of the fermentation of rare sugars by members of the colon and *aerogenes* groups of bacteria. III. *d*-Fucose 473
Harris, Robert L., and Mattill, H. A. The effect of hot alcohol on purified animal proteins 477
Leva, Ernst. A colorimetric micromethod for the determination of sodium with manganous uranyl acetate 487
Abramowitz, A. A. Purification of the chromatophorotropic hormone of the crustacean eyestalk 501
Hogan, Albert G., and Parrott, Ernest M. Anemia in chicks caused by a vitamin deficiency 507

JENSEN, H., and TOLKSDORF, SIBYLLE. The effect of picric and flavianic acids on the potency of the follicle-stimulating anterior pituitary hormone 519
KOEHN, C. J., and SHERMAN, W. C. The determination of vitamin A and carotene with the photoelectric colorimeter 527
SCHNEIDER, H., STEENBOCK, H., and PLATZ, BLANCHE R. Essential fatty acids, vitamin B_6, and other factors in the cure of rat acrodynia 539
TROESCHER, E. ELIZABETH, and NORRIS, EARL R. A micro blood esterase determination applied to studies of rats bearing adenocarcinoma 553
BORSOOK, HENRY, and DUBNOFF, JACOB W. The formation of creatine from glycocyamine in the liver 559
TORRANCE, CALVIN C. Diphtherial intoxication and vitamin C content of the suprarenals of guinea pigs 575
PETT, L. B., and LEPAGE, G. A. Vitamin A deficiency. III. Blood analysis correlated with a visual test 585
TALBOT, N. B., BUTLER, ALLAN M., and MACLACHLAN, E. The colorimetric assay of total, α-, and β-17-ketosteroids in extracts of human urine 595
PEARLMAN, W. H., and WINTERSTEINER, O. Estrogens with oxygen in Ring B. II. Δ_6-Isoequilin from 7-hydroxyestrone 605
MACKAY, EATON M., WICK, ARNE N., and CARNE, HERBERT O. Relative amount of hepatic glycogen deposited by glucose, glycine, and *dl*-alanine 613
EMBREE, NORRIS D., and SHANTZ, EDGAR M. Cyclization of vitamin A_2 619
GRIFFITH, WENDELL H., and WADE, NELSON J. Choline metabolism. II. The interrelationship of choline, cystine, and methionine in the occurrence and prevention of hemorrhagic degeneration in young rats 627
GRIFFITH, WENDELL H. Choline metabolism. III. The effect of cystine, fat, and cholesterol on hemorrhagic degeneration in young rats 639
EICHELBERGER, LILLIAN, and BIBLER, WALTER G. Water and electrolyte content of normal and hydronephrotic kidneys 645
ROSNER, LAWRENCE. The reaction between iodoacetic acid and denatured egg albumin 657
MATLACK, M. B., and TUCKER, I. W. An esterase from muscular tissue 663
ANTOPOL, WILLIAM, and GLICK, DAVID. Studies in histochemistry. XV. The histological distribution of choline esterase in the adrenal gland 669
BOWERS, RUSSELL V., OUTHOUSE, EDGAR L., and FORBES, J. C. Phosphatase studies: the hydrolysis of aminoethylphosphate and β-glycerophosphate by fecal and kidney phosphatase 675

West, Edward S., Christensen, Bert E., and Rinehart, Robert E. A micromethod for the determination of carbon dioxide in blood and other fluids 681
Wheeler, D. H., Riemenschneider, R. W., and Sando, Charles E. Preparation, properties, and thiocyanogen absorption of triolein and trilinolein 687
Myers, Victor C., and Mangun, George H. Comparative studies on creatine, phosphorus, and potassium in various muscle tissues 701
Nelson, Norton, Grayman, Isabelle, and Mirsky, I. Arthur. The utilization of acetone bodies. III. The influence of adrenalectomy 711
White, Abraham, and Lavin, G. I. The ultraviolet absorption spectrum of prolactin 717
Solomon, Rebecca Z., Hald, Pauline M., and Peters, John P. The state of the inorganic components of human red blood cells 723
Kendrick, A. B., and Hanke, Martin E. The effect of iodine and mercury on amino nitrogen values with nitrous acid 739
Consolazio, W. V., and Talbott, John H. The determination of total base in biological material by electrodialysis 753
Coryell, Charles D., and Pauling, Linus. A structural interpretation of the acidity of groups associated with the hemes of hemoglobin and hemoglobin derivatives 769

Letters to the Editors

Johnson, J. M. A comparison of the optical forms of glutamic acid from normal and cancerous tissue 781
McShan, W. H., and Meyer, Roland K. The relation of the follicle-stimulating activity of fresh pituitary tissue to the action of the enzymes contained in the tissue 783
Moxon, Alvin L., Schaefer, A. E., Lardy, H. A., DuBois, K. P., and Olson, O. E. Increasing the rate of excretion of selenium from selenized animals by the administration of *p*-bromobenzene 785
Waelsch, Heinrich, and Sperry, Warren M. The composition of unsaponifiable lipids 787
György, Paul, Poling, C. E., and Subbarow, Yellapragada. Observations on the factor curative of nutritional achromotrichia 789
Hotchkiss, Rollin D., and Dubos, René J. Fractionation of the bactericidal agent from cultures of a soil bacillus 791
Hotchkiss, Rollin D., and Dubos, René J. Chemical properties of bactericidal substances isolated from cultures of a soil bacillus 793
